

Level 4 Application Instructions

Dear Applicant,

Congratulations on your decision to further your professional credentials by applying for Level 4 Coach Certification!

The requirements for certification as a Level 4 Coach are based on the areas of coaching that reflect the values of U.S. Masters Swimming. They are:

1. Contribution
2. Achievement
3. Growth & Retention
4. Leadership
5. Education
6. Extra Credit

For each category:

- there is a maximum number of points allowable toward total points.
- there is a minimum number of points you must achieve in that category.
- you must achieve points in at least two areas in each category.

For each line item within a category:

- the **Maximum** column shows the maximum number of points in that area that the Coach is allowed to apply toward that category's total

Mandatory Pre-requisites for Level 4 Certification:

1. Must be a USMS Level 3 Certified Coach
2. Must have at least 5 years of Masters coaching experience

Must hold current American Red Cross certification for either (a) or (b):

- a. **CPR-AED AND Safety Training for Swim Coaches (STSC)/First Aid**
 - i. STSC now includes **First Aid**, which is also a Level 4 pre-requisite.
 - ii. Please note that STSC is a 2-part course – an online academic portion and an in-water skills portion. You must complete both.
 - iii. Certificates from both the online and in-water skills must be submitted.
 - iv. Connect with an STSC instructor **before** signing up for any online portion as you may encounter a situation where you are charged twice for the course.
- b. **Lifeguarding** (now required by many aquatic facilities)
3. Must earn a minimum of 650 total points on the Level 4 application.
4. Regional (outside just your team and LMSC) and/or National contributions are required. This could be met by contributions in several categories. However, failure to meet this requirement, regardless of points achieved, will result in a deferred application.
5. Must be a Head Coach or Assistant Coach of your Masters team with significant responsibility in team operations (beyond coaching workouts). If an Assistant Coach, please have your Head Coach write a short letter that outlines the scope of services you provide

as an Assistant Coach with your Masters team. Coaches of workout groups will be considered. Applications will be awarded points based on the swimmers for which the applicant coach is the primary coach. Thus, if you coach 30 swimmers in your workout group, this is the group for which points can be awarded in the first 3 categories.

6. Letters from head coaches are helpful when multiple coaches apply for level 4 from the same club. Please do not take credit for participation of swimmers that rarely swim in your group, especially if they primarily swim with another applicant. Corroboration from team board and/or swimmers is helpful.
7. If you have any questions about any of the above requirements, please contact the coaches committee at coaches@usmastersswimming.org

The process to apply is outlined below and in the following pages. It is very important that you read through all instructions and return to those instructions when completing each section of your application, as these will guide you through what you need to submit as proof for the various categories and sub-categories.

Each application will be required to submit their completed package in a single PDF document (not a ZIP file). Included in that package should be the application scoring sheet where you fill in the score you believe that you have achieved. Proof of fulfillment in the various categories (outlined on the following pages) should then appear in the PDF document in the order of the application categories: Contributions, Achievement, Growth & Retention, Leadership, Education and Extra Credit. Submissions should be reflective of the professionalism expected of a level 4 Coach and should be able to stand up to public scrutiny. Supporting documentation should be relevant, clearly labeled as to which category and/or line-item it is supporting and be purged of extraneous information that does not contain supporting documentation. The application should seek to impress the committee in content, clarity, and professionalism.

The committee will use its discretion in determining how much credit is counted for each item based on documentation provided. Any place where the committee feels insufficient documentation is presented, scoring will be adjusted accordingly. The points system is simply a starting point for the committee's deliberation. Please note, simply earning the minimum in each category, does not match the minimum total points that must be earned on the application. Be sure to include all accomplishments so that your strengths will assist you in achieving the required overall points. If the committee determines that the applicant has scored sufficient points in each of the categories and in total, then the committee will use its combined wisdom, experience and knowledge to assess the applicant's body of work to determine whether it reflects that of an elite coach. This part is not about the mechanical scoring of points but, rather, persuasive demonstration/documentation of that which puts the applicant on a substantially different, more involved level than others who have attained Level 3. We are looking for Level 4 candidates to clearly exhibit professionalism and excellence in the field of coaching adult swimmers and who have offered significant contributions to Masters Swimming as a whole.

Applications are to be submitted via email to coaches@usmastersswimming.org between May 15th and July 15th. Incomplete, unethical, early, or late applications will not be considered. Applicants failing to meet the pre-requisites will not be considered. Those not fulfilling these pre-requisites must wait until the next application submission dates and reapply.

USMS Coaches Certification – Level 4 Application

Completed applications will be reviewed by a panel of coaches and measured against the standards set forth in the following pages. Your submission should be professional in appearance and assembled into a single PDF document that can be compressed to submit it by email. There are several free computer programs and websites online that enable you to easily put together a single PDF from your documentation and compress it. Most local printing and copy stores can assist you as well.

Applicants will be notified of their status within a few weeks after the submission deadline closes.

If an application is deferred, the resubmitted application will be judged based on the new application date, and therefore the information submitted should be updated to ensure all dates fall within the timeframe allowed. This includes ensuring the required certifications are still current.

Thank you for all you do for our sport!

Instructions for Extra Credit Category

This section is to allow for additional achievements that may not fit in any of the previous categories in the application. This includes additional education, contributions, etc., for consideration. Show us what you've done and tell us what impact it has had on you and the Masters swimming community. As with all other categories, you should elaborate and provide documentation that sells the worthiness for what you want credit. Corroboration of what you have done or in what you have participated will be required. This category cannot compensate for a shortfall in any given category. Applicants must achieve the minimum point total in every category.

EXTRA CREDIT		MAXIMUM
1. This section allows other creditable achievements, such as non-swimming specific contributions, that may have not “fit” in any of the previous categories of which were considered. It includes awards presented to you and featured articles on your accomplishments.		100
<p>Examples would include publishing a book on swimming, producing and marketing a swimming video (or youtube channel), inventing and bringing to market a swim training tool, taking formal coaching related college courses, producing a weekly swimming podcast, or coming up with some new and novel way to expand or improve the adult swimming universe.</p> <p>Show us what you've done and tell us what impact it has had on you and/or the Masters community.</p>	<p><i>Use the next page to talk about the other ways you have contributed to our adult swimming community. Present documentation to support these achievements and / or contributions.</i></p>	
Maximum allowable points for the Extra Credit category:		100
MAXIMUM GRAND TOTAL OF POINTS		1190
Your points tallied from above Note: You must achieve a minimum of 650 total points for Level 4 status.
