

2003 United States Masters Swimming
3000/6000 Yard
National Postal Championships

OFFICIAL RESULTS

Congratulations and Thank You

You did it, you completed a 3000 or 6000 yard swim. This was quite an accomplishment, considering that less than five percent of the US population can swim 500 continuous yards in less than ten minutes.

Through the experience of hosting this event, I have reaffirmed the fact that Masters swimmers are a hearty and friendly group. Many of you sent in notes and comments with your entries, which provide some of the color for our wrap up report.

Unhealthy Air Quality

Swimmers from California had challenges in completing their swims. If you recall, California had one of its worst wild fire seasons in history during September and October making the air unhealthy to breathe.

Karlyn Pipes-Neilsen (41) of San Diego Swim Masters was following the advice of local officials to not exercise during late October. It was during this time she realized she had limited time to complete the 3000 swim. Since most of the pools in her area are outdoors, Pipes-Neilsen was forced to complete her swim in an indoor, hot and over crowded pool.

Pipes-Neilsen commented, “even though the air quality was poor and the pool conditions were less than desirable, I did my swim on Friday, October 31. I swam a new national record, breaking my own record by almost 50 seconds.”

Larry Raffaelli (60) of Ventura County Masters had a similar experience. His record breaking 3000 yard swim would come during his record breaking 6000 yard swim. Raffaelli completed both events, but air quality during the 3000 yard swim contributed to a slower time. When looking at the 6000 yard split, he realized that he had beaten his 3000 yard time.

Brian Lamb (left) and Doug Garcia

Other Notables

George Brunstad (69) of Connecticut Masters and a graduate of Washington State College (now Washington State University—WSU) wrote to talk about his Cougar heritage. One of many in his family to graduate from WSU, Brunstad graduated in '56(B.S.) and in '57(M.S) and swam for the Cougars. Cougar men's swimming fell victim to Title IX in '70s.

Brunstad wrote he suffered a work related injury on September 17, causing him contused muscles, along with ligament, tendon and rib damage. With five weeks of training and recovery, he completed both swims in late October. Considering his injuries, his times were not significantly different than previous years—his 6000 time for 2002 was 1:25:44, compared to this year's time of 1:28:36; his 3000 time in 2002 was 41:03,

going a 43:02 this year. Brunstad completed all five USMS postal swims in 2003.

USMS Swim Magazine editor Bill Volckening (37) of New England Masters, swam in all the USMS long distance events in 2003, including: the One Hour, the 5/10K, and 3000/6000 Postal Swims, as well as the Two-Mile Cable Swim, the One-Mile, the Three-Kilometer, Five-Kilometer and the Ten-Kilometer Open Water swims.

Jennifer Parks (60) of Michigan Masters raised approximately \$600 for the local United Way chapter by swimming the 6000 yards.

In the excess-is-not-enough category, Peggy Whiter (59 & 60) of Oregon Masters

Swimming completed both events twice, once as a young lady of 59 and once as a more mature swimmer of 60. We are pleased to note that she is improving with age.

Records, Records, Records

Many national records were broken during the conduct of this event. The most interesting group was the men's 55-59 age group for the 3000 yard. Keith Bell (55) of New England Masters set the new national record off a 6000 yard split, going a 35:22.60. Steve Johnson, (55) of Oregon Masters, Joel Wilson (55) of Santa Cruz Masters, and Tod Spieker (55) of the Olympic Club all broke the old national record of 36:10.77.

Oldest and Youngest, the Slowest?

Though not necessarily the fastest or slowest within their age group, this event drew many new Masters swimmers as well as veterans.

see WRAP UP on page 3

WRAP UP *from page 2*

The senior women included: Gertrude Zine (86) of Florida Maverick Masters who completed the 3000 yard event and Nancy Durstein (73) of Clearwater Aquatic Team Masters swimming in the 6000. New Masters swimmers included: Erin McCleave (19) of Inland Northwest Masters competing in the 3000 yard event, and Sasha Taylor (21) also of Inland Northwest Masters who set a new national record in the 6000 yard event.

Senior men included: TR Johnson (81) of the Typical Tropical Swim Club, who swam both the 3000 and 6000 yard events, and William Johnson (85) of Walnut Creek Masters, who swam the 3000 yard event. The youngest male swimmer was Craig Charley (20) of Virginia Masters who completed both the 3000 and the 6000 yard swims.

A sense of accomplishment—not setting records—is what this event is for many participants. One swimmer wrote, “Enclosed is arguably the country’s... slowest time for the men’s 3000. Though I swam as fast as I could, for me simply participating and finishing is victory enough.”

Thank You

Special thanks goes to Brian Lamb of the WSU Masters Swim Team, without his knowledge and expertise in swim meet number crunching, we couldn’t have hosted this event. Thanks also goes to the rest of the members of the team who assisted with data entry, double checking results and stuffing envelopes at our annual holiday party.

Thanks to all of you who participated in this event.

—Doug Garcia, Event Director,
3000/6000 Postal Championships

Washington State University Masters Swimming (WSU Masters) is a year around program of fitness swimming for all ages of and ability levels of adult swimmers. Participants benefit from general fitness swimming and technique instruction to swimming competitions, triathlon training. WSU Masters has been serving the Palouse region of Eastern Washington and North Idaho for 10 years. To learn more about WSU Masters, visit us online at www.WSUMastersSwimming.org

Be sure to watch *Swim Magazine* and your local newsletter for entry forms for the 2004 3000/6000 National Postal Championships to be hosted by **Central Oregon Masters Swimming.**
